

Beginner Engineering

Collaboration Station is excited to offer Beginner Engineering classes. Engineering involves the application of science and mathematics to solve real-world problems and innovate new products and designs. Engineers want to know how and why things work.

Individuals will engage in various critical thinking and collaborative activities, including:

- ✂ Building the Tallest Paper Tower
- ✂ Designing the Queen's Garden
- ✂ Designing the best Paper Airplane

**Individuals of all abilities
are welcome!**

Individuals will participate in a fun, creative, and inclusive environment. All students will be given support and encouragement as they cultivate their critical thinking, creative, and collaborative skills. Students will work together to design creative solutions to various challenges.

**Classes will meet weekly for eight weeks for one-hour sessions.
The cost is \$50.00 per class.**
